

# Rapport des Commits de la Semaine

Cette semaine, j'ai travaillé sur plusieurs aspects du projet :

## UI/UX :

- Add post count to owned communities et improve post display styling
- Make it responsive for small laptops & phones
- Enhance post detail page with interactive q&a, discussion, et responsive layout
- Refactor ui styling et add locked courses section in community hub
- Implement post creation api et enhance community dashboard post creation ui
- Add radix ui switch component et enhance post creation ui

## Fonctionnalités :

- Add weekly git report generation script et update project documentation
- Add user-specific community posts fetching et display on profile page for joined communities
- Add toast notifications for unimplemented features across multiple pages
- Add toast notifications for unimplemented navigation links
- Add post preview feature to community dashboard & add a button to acces to your own community
- Add rss feed et post creation features to community dashboard

## API :

- Update community details api et page with enhanced creator et image information
- Add post detail page et api route for individual community posts
- Secure tinymce api key by using environment variable (the api key will be revoke after the 14 days of free trials)

## Améliorations :

- Update community faq with defi-focused q&a; content
- Show real post in the community hub et restructure the interface
- Refactor community posts et dashboard data models
- Remake off dashboard to be structured like the sketch

## Liste détaillée des commits

Date	Message
2025-02-21 23:18	<p>Update community details API and page with enhanced creator and image information</p> <ul style="list-style-type: none"><li>• Modify community API route to return full creator details</li><li>• Update community page to display creator's full name and community banner</li><li>• Refactor community type definition to include more detailed creator and image properties</li><li>• Add console log for debugging community data retrieval</li></ul>
2025-02-21 23:06	<p>Add weekly git report generation script and update project documentation</p> <ul style="list-style-type: none"><li>• Create Python script to generate weekly commit report PDF</li><li>• Update README.md with comprehensive project overview and technical details</li><li>• Add commits report PDF to document recent project developments</li><li>• Include environment variable documentation and project structure explanation</li></ul>
2025-02-20 15:22	<p>Update community FAQ with DeFi-focused Q&amp;A; content</p> <ul style="list-style-type: none"><li>• Replace generic community FAQ with specific DeFi-related questions and answers</li><li>• Add new FAQ entries covering DeFi platforms, risks, passive income strategies, and tools</li><li>• Enhance information depth and practical guidance for DeFi beginners</li></ul>
2025-02-20 04:32	<p>Add user-specific community posts fetching and display on profile page for joined communities</p> <ul style="list-style-type: none"><li>• Create new API route to fetch user's posts for a specific community</li><li>• Implement dynamic post fetching and display in profile page</li><li>• Add date formatting for posts using date-fns library</li><li>• Update profile page to show user's posts per selected community</li><li>• Enhance user experience with more detailed post information</li></ul>
2025-02-20 03:25	<p>Add toast notifications for unimplemented features across multiple pages</p> <ul style="list-style-type: none"><li>• Integrate Sonner toast library to provide user feedback</li><li>• Add informative toast messages for buttons and interactions that are not yet implemented</li><li>• Enhance user experience by preventing unintended navigation and providing clear guidance</li><li>• Apply toast notifications in home page, community hub, dashboard, profile, and header components</li></ul>

2025-02-20 03:11	<p>Add toast notifications for unimplemented navigation links</p> <ul style="list-style-type: none"> <li>• Add Sonner toast library to Header component</li> <li>• Display informative toast message when clicking on "EXPLORER" and "COMMUNAUTÉS" links</li> <li>• Prevent navigation to unfinished pages with informative user feedback</li> </ul>
2025-02-20 03:06	<p>Add post count to owned communities and improve post display styling</p> <ul style="list-style-type: none"> <li>• Include community_posts in owned communities API route</li> <li>• Calculate and display accurate post count for each community</li> <li>• Add padding to post content in community hub for better readability</li> </ul>
2025-02-20 02:42	<p>Make it responsive for small laptops &amp; phones Enhance header and navigation with responsive design and new components</p> <ul style="list-style-type: none"> <li>• Add responsive mobile menu to Header component</li> <li>• Create new StatIndicator, PointsIcon, and WalletIcon components</li> <li>• Update logo to use SVG version</li> <li>• Improve mobile and desktop layout for header navigation</li> <li>• Add dynamic user data fetching and display</li> <li>• Implement mobile-friendly menu toggle and styling</li> </ul>
2025-02-20 00:40	<p>Enhance post detail page with interactive Q&amp;A, discussion, and responsive layout</p> <ul style="list-style-type: none"> <li>• Add Disclosure component for expandable Q&amp;A; and FAQ sections</li> <li>• Implement sidebar chat with dynamic message rendering</li> <li>• Update post page layout to include discussion and Q&amp;A; panels</li> <li>• Add hash navigation for post page</li> <li>• Improve routing with scroll to specific section</li> <li>• Enhance user interaction with expandable content and message reactions</li> </ul>
2025-02-19 20:24	<p>Add post detail page and API route for individual community posts</p> <ul style="list-style-type: none"> <li>• Implement GET route to fetch a specific post with user details</li> <li>• Create a detailed post page with comprehensive post information</li> <li>• Add authorization checks to ensure user is a community member</li> <li>• Include post metadata like title, content, cover image, and author details</li> <li>• Support dynamic routing for post retrieval</li> </ul>

2025-02-19 19:49	<p>Refactor UI styling and add locked courses section in community hub</p> <ul style="list-style-type: none"> <li>• Update Tailwind config with consistent indentation</li> <li>• Modify community hub gradient to use radial gradient with specific colors</li> <li>• Add a disabled "Courses" tab with a lock icon</li> <li>• Enhance FAQ section layout with separate question and answer styling</li> <li>• Adjust profile page header gradient to match community hub design</li> </ul>
2025-02-19 19:34	<p>Show Real Post in the community hub and restructure the interface Enhance community posts feature with dynamic rendering and date formatting</p> <ul style="list-style-type: none"> <li>• Add date-fns library for improved date localization and formatting</li> <li>• Implement dynamic post fetching for community and dashboard pages</li> <li>• Update post rendering to include user details, cover images, and contribution status</li> <li>• Modify Prisma schema to establish relationships between users, communities, and posts</li> <li>• Improve UI with category-based post grouping and enhanced post preview</li> </ul>
2025-02-19 18:17	<p>Add post preview feature to community dashboard &amp; Add a button to acces to your own community</p> <ul style="list-style-type: none"> <li>• Implement preview dialog for post creation</li> <li>• Add new state variable `isPreviewOpen` to manage preview visibility</li> <li>• Create preview dialog with comprehensive post preview</li> <li>• Include cover image, tag, title, content, and contribution status in preview</li> <li>• Enhance UI with hover and transition effects on buttons</li> <li>• Adjust layout and styling for better user experience</li> </ul>
2025-02-19 17:56	<p>Implement post creation API and enhance community dashboard post creation UI</p> <ul style="list-style-type: none"> <li>• Add new API route for creating community posts with authorization checks</li> <li>• Update TinyMCE editor component to support value and onChange props</li> <li>• Modify community dashboard to add post submission functionality</li> <li>• Update Prisma schema to include post status field</li> <li>• Implement client-side validation and error handling for post creation</li> </ul>
2025-02-19 16:48	<p>Refactor community posts and dashboard data models</p> <ul style="list-style-type: none"> <li>• Remove community_posts_comments model</li> <li>• Update community_posts schema with new fields: title, tag, cover_image_url, and accept_contributions</li> <li>• Modify dashboard and community API routes to remove comments-related logic</li> <li>• Simplify engagement rate calculation using likes_count instead of comments_count</li> </ul>

2025-02-18 23:15	<p>Add Radix UI Switch component and enhance post creation UI</p> <ul style="list-style-type: none"><li>• Integrate @radix-ui/react-switch package</li><li>• Update package.json and package-lock.json with new dependency</li><li>• Add Switch component to create-post page</li><li>• Enhance dashboard creation tab with new UI elements like cover image upload, emoji/tag selection, and contribution toggle</li></ul>
2025-02-18 17:59	<p>Secure TinyMCE API key by using environment variable (the api key will be revoke after the 14 days of free trials)</p>
2025-02-17 21:54	<p>Add RSS feed and post creation features to community dashboard</p> <ul style="list-style-type: none"><li>• Implement RSS feed section with dynamic content and filtering options</li><li>• Create post creation interface with TinyMCE editor integration</li><li>• Add state management for RSS feeds and posts</li><li>• Enhance dashboard with new 'Collecte et veille' and 'Création' tabs</li><li>• Improve UI with responsive grid layout and interactive components</li></ul>
