

# Rapport des Commits de la Semaine

Cette semaine, j'ai travaillé sur plusieurs aspects du projet :

## UI/UX :

- Solve error build
- Enhance chatbox message layout with consecutive message grouping et refined ui
- Refactor chatbox message layout et improve interaction ux
- Add custom scrollbar styles to improve chat ui readability
- Enhance chatbox with advanced messaging features et ui improvements [always currently 1 for each community]

## Fonctionnalités :

- Implement q&a; system for community hub
- Add test page for support
- Implement dynamic channel management for community chat system [now working]
- Add firebase real-time chat functionality to community hub [currently 1 for each community]
- [fetching last comments not working, github et stackoverflow thread created ]
- (miss the fetching system for each pending post) implement comprehensive comment et conversation system for community posts
- (not workin) implement dedicated post review page et enhance user profile data retrieval
- Implement post review et contribution workflow(whithout tiny mce comments)
- Add member management features in community dashboard
- Add edit button for post authors in community hub

## API :

- Restructure api route et files
- Update comprehensive post management routes et pages for community platform

## Améliorations :

- Supprimer les logs de débogage dans la page communityhub
- Refactor q&a; system with inline editing et simplified modal removal
- Explain how the chat works with comments
- Refactor communityhub page et chatbox with improved chat functionality

- Update test page login credentials et community/post ids
- Remove deprecated chat page component
- Update tinymce component props in dashboard et post edit pages
- Merge branch 'main' of <https://github.com/snowledgeball/poc-version>
- Improve chatbox scrolling et message handling with smooth auto-scroll et enhanced timestamp checks
- Improve chatbox reply message display et functionality
- Enhance channel management with creator-only permissions et improved ux

## Liste détaillée des commits

Date	Message
2025-02-28 19:13	<p>Supprimer les logs de débogage dans la page CommunityHub</p> <ul style="list-style-type: none"> <li>• Retirer les appels console.log() inutiles</li> <li>• Nettoyer le code de débogage dans la récupération des données de communauté</li> <li>• Améliorer la lisibilité et la performance du composant</li> </ul>
2025-02-28 01:39	<p>Refactor Q&amp;A; system with inline editing and simplified modal removal</p> <ul style="list-style-type: none"> <li>• Replace modal-based Q&amp;A; interactions with inline editing for questions and answers</li> <li>• Remove separate modal components for creating and editing Q&amp;A; content</li> <li>• Simplify state management and improve user experience with direct editing</li> <li>• Remove category selection for questions</li> <li>• Streamline API calls and component logic</li> </ul>
2025-02-27 22:39	<p>Implement Q&amp;A; system for community HUB</p> <ul style="list-style-type: none"> <li>• Add API routes for managing community Q&amp;A; questions and answers</li> <li>• Create modals for creating, editing, and deleting questions and answers</li> <li>• Update CommunityHub page to integrate Q&amp;A; functionality</li> <li>• Add Prisma schema for community_qa_questions and community_qa_answers</li> <li>• Implement full CRUD operations for Q&amp;A; with proper authorization checks</li> </ul>
2025-02-27 21:01	<p>Explain how the chat works with comments</p>

2025-02-27 20:50	<p>Refactor CommunityHub page and ChatBox with improved chat functionality</p> <ul style="list-style-type: none"> <li>• Remove hardcoded mock data from CommunityHub</li> <li>• Integrate ChatBox directly into the community page</li> <li>• Add message editing and deletion capabilities to ChatBox</li> <li>• Implement delete message confirmation modal</li> <li>• Improve chat UI with edit and delete message actions</li> </ul>
2025-02-27 20:28	<p>Update test page login credentials and community/post IDs</p> <ul style="list-style-type: none"> <li>• Change login email and password to "test@test"</li> <li>• Update communityId from "32" to "38"</li> <li>• Update postId from "11" to "12"</li> </ul>
2025-02-27 20:09	<p>Remove deprecated Chat page component</p> <ul style="list-style-type: none"> <li>• Delete standalone Chat.tsx server component</li> <li>• Likely part of ongoing component refactoring or cleanup</li> </ul>
2025-02-27 20:06	<p>Update TinyEditor component props in dashboard and post edit pages</p> <ul style="list-style-type: none"> <li>• Replace `value` prop with `initialValue` for TinyEditor</li> <li>• Ensure consistent prop usage across different components</li> </ul>
2025-02-27 20:02	<p>solve error build</p>
2025-02-27 19:58	<p>Add test page for support</p>
2025-02-27 19:19	<p>REstructure api route and files</p>
2025-02-27 18:28	<p>Update comprehensive post management routes and pages for community platform</p> <ul style="list-style-type: none"> <li>• Update routing to use consistent '/posts/' path structure</li> </ul>
2025-02-26 23:05	<p>Merge branch 'main' of <a href="https://github.com/Snowledgeball/poc-version">https://github.com/Snowledgeball/poc-version</a></p>

2025-02-26 23:05	<p>Improve ChatBox scrolling and message handling with smooth auto-scroll and enhanced timestamp checks</p> <ul style="list-style-type: none"><li>• Add smooth auto-scrolling with easing animation for message container</li><li>• Implement scroll detection to control auto-scroll behavior</li><li>• Add ref for scrolling to bottom of messages</li><li>• Enhance timestamp comparison logic to handle undefined timestamps</li><li>• Update channel selection logic when deleting the last channel</li></ul>
2025-02-26 22:36	<p>Enhance ChatBox message layout with consecutive message grouping and refined UI</p> <ul style="list-style-type: none"><li>• Implement consecutive message grouping with reduced vertical spacing</li><li>• Refactor message actions and reactions layout for improved readability</li><li>• Optimize message display with dynamic styling based on message sequence</li><li>• Improve hover interactions and tooltip visibility for message actions</li></ul>
2025-02-26 21:42	<p>Refactor ChatBox message layout and improve interaction UX</p> <ul style="list-style-type: none"><li>• Restructure message display with more compact and responsive layout</li><li>• Enhance message actions and reactions with hover-based interactions</li><li>• Optimize emoji picker and reaction button placement</li><li>• Improve group hover effects for message actions</li></ul>
2025-02-26 21:39	<p>Improve ChatBox reply message display and functionality</p> <ul style="list-style-type: none"><li>• Add reply message metadata when sending messages</li><li>• Enhance reply message UI with user image and improved styling</li><li>• Refactor reply message rendering logic for better readability</li><li>• Conditionally add reply reference to message data</li></ul>
2025-02-26 21:09	<p>Enhance channel management with creator-only permissions and improved UX</p> <ul style="list-style-type: none"><li>• Add authentication checks for channel creation and deletion</li><li>• Implement creator-only channel management in API routes</li><li>• Update ChatBox component to conditionally render channel actions</li><li>• Add delete channel modal with error handling</li><li>• Improve channel management security and user experience</li></ul>

2025-02-26 20:53	<p>Implement dynamic channel management for community chat system [NOW WORKING]</p> <ul style="list-style-type: none"> <li>• Add API routes for creating and deleting custom channels</li> <li>• Enhance ChatBox component with channel creation modal</li> <li>• Update Prisma schema to support community-specific channels</li> <li>• Implement channel list fetching and dynamic channel selection</li> <li>• Add channel deletion functionality with default channel protection</li> <li>• Update ChatBox to pass communityId for message and channel operations</li> </ul>
2025-02-26 20:48	<p>Add custom scrollbar styles to improve chat UI readability</p> <ul style="list-style-type: none"> <li>• Implement custom scrollbar CSS for channel and message lists</li> <li>• Use dark mode color palette for scrollbar track and thumb</li> <li>• Apply custom-scrollbar class to ChatBox overflow containers</li> <li>• Enhance visual consistency with existing dark theme design</li> </ul>
2025-02-26 20:05	<p>Enhance ChatBox with advanced messaging features and UI improvements [always currently 1 for each community]</p> <ul style="list-style-type: none"> <li>• Implement multi-channel chat system with default channel selection</li> <li>• Add message reactions, replies, and emoji picker functionality</li> <li>• Improve message input with dynamic textarea and character limit</li> <li>• Redesign chat UI with dark mode and responsive layout</li> <li>• Update user and authentication types to enforce required fields</li> <li>• Add message metadata like timestamps, replies, and reactions</li> </ul>
2025-02-26 18:21	<p>Add Firebase real-time chat functionality to community hub [currently 1 for each community]</p> <ul style="list-style-type: none"> <li>• Integrate Firebase Firestore for real-time messaging</li> <li>• Create ChatBox component with message sending and receiving capabilities</li> <li>• Add Firebase client and admin configurations</li> <li>• Update community hub page to include chat component</li> <li>• Configure Firebase dependencies in package.json and tsconfig</li> <li>• Implement secure message storage and retrieval</li> </ul>
2025-02-26 17:36	<p>[FETCHING last comments not working, github and stackoverflow thread created ] Refactor comment conversations API and TinyEditor comment fetching</p> <ul style="list-style-type: none"> <li>• Replace batch conversation fetching route with single GET endpoint for all conversations</li> <li>• Update TinyEditor to fetch all conversations for a post in a single request</li> <li>• Add type definition for conversation and comment data structure</li> <li>• Simplify comment retrieval logic in frontend component</li> </ul>

2025-02-25 21:17	<p>(Miss the fetching system for each pending post) Implement comprehensive comment and conversation system for community posts</p> <ul style="list-style-type: none"> <li>• Add new API routes for managing comment conversations, comments, and resolving discussions</li> <li>• Enhance TinyEditor component with advanced comment and conversation features</li> <li>• Update Prisma schema to support conversation resolution and multiple comments</li> <li>• Implement full CRUD operations for comment conversations and individual comments</li> <li>• Add authorization checks for comment and conversation management</li> <li>• Support comment creation, editing, deletion, and resolution workflows</li> </ul>
2025-02-24 23:34	<p>(Not workin) Implement dedicated post review page and enhance user profile data retrieval</p> <ul style="list-style-type: none"> <li>• Create new dedicated review page for pending community posts</li> <li>• Add API route to fetch pending post details with reviews</li> <li>• Update user profile API to include user ID in returned data</li> <li>• Remove inline review modal from pending posts page</li> <li>• Add new test page for TinyEditor component</li> <li>• Update authentication library to support profile image in session</li> <li>• Modify Prisma schema to support additional comment and conversation models</li> </ul>
2025-02-24 18:42	<p>Implement post review and contribution workflow(whithout tiny mce comments)</p> <ul style="list-style-type: none"> <li>• Add new API routes for pending posts, post reviews, and publication</li> <li>• Create pages for reviewing and managing pending community posts</li> <li>• Update Prisma schema to support post review and status tracking</li> <li>• Implement contributor-only post submission with review process</li> <li>• Add UI components for post review, approval, and publication</li> <li>• Enhance community hub with contributor-specific features</li> </ul>
2025-02-24 17:10	<p>Add member management features in community dashboard</p> <ul style="list-style-type: none"> <li>• Implement promote/demote member functionality</li> <li>• Add ban member feature with reason input</li> <li>• Create new API routes for member status changes and banning</li> <li>• Update Prisma schema to support community bans</li> <li>• Add popover menu for member actions in dashboard</li> <li>• Enhance member management with toast notifications</li> </ul>

2025-02-24 16:15	<p data-bbox="438 226 1026 262">Add edit button for post authors in community hub</p> <ul data-bbox="438 304 1266 451" style="list-style-type: none"><li data-bbox="438 304 1136 336">• Implement edit button for posts owned by the current user</li><li data-bbox="438 340 1266 371">• Add conditional rendering of edit button based on user authentication</li><li data-bbox="438 375 863 407">• Import Edit icon from Lucide React</li><li data-bbox="438 411 1055 443">• Remove unnecessary console log in edit post page</li></ul>
