

Rapport des Commits de la Semaine

Cette semaine, j'ai travaillé sur plusieurs aspects du projet :

UI/UX :

- Add post count to owned communities et improve post display styling
- Make it responsive for small laptops & phones
- Enhance post detail page with interactive q&a, discussion, et responsive layout
- Refactor ui styling et add locked courses section in community hub
- Implement post creation api et enhance community dashboard post creation ui
- Add radix ui switch component et enhance post creation ui

Fonctionnalités :

- Add user-specific community posts fetching et display on profile page for joined communities
- Add toast notifications for unimplemented features across multiple pages
- Add toast notifications for unimplemented navigation links
- Add post preview feature to community dashboard & add a button to acces to your own community
- Add rss feed et post creation features to community dashboard

API :

- Add post detail page et api route for individual community posts
- Secure tinymce api key by using environment variable (the api key will be revoke after the 14 days of free trials)

Améliorations :

- Update community faq with defi-focused q&a; content
- Show real post in the community hub et restructure the interface
- Refactor community posts et dashboard data models
- Remake off dashboard to be structured like the sketch

Liste détaillée des commits

Date	Message
2025-02-20 15:22	<p>Update community FAQ with DeFi-focused Q&A; content</p> <ul style="list-style-type: none"> • Replace generic community FAQ with specific DeFi-related questions and answers • Add new FAQ entries covering DeFi platforms, risks, passive income strategies, and tools • Enhance information depth and practical guidance for DeFi beginners
